

Traffic concept CULTURA SUISSE 2024

Dear exhibitors

We will be pleased to inform you about the traffic concept for setting up and dismantling at CULTURA SUISSE on the following pages.

General information

Access/entrance to the exhibition hall (Bernexpo, Mingerstrasse 6, 3014 Bern)

Due to the construction work around the exhibition site and the resulting limited space, we ask for your understanding if there are sometimes waiting times during set-up and dismantling.

For the entire duration of the construction and dismantling work, access to the Expo site and the exhibition hall will be via Bolligenstrasse.

Material handling hall 1.2

The material can be transported into the halls via the signalized access routes with priority via the delivery gates (lifts 1 & 3) and, if necessary (subject to approval), via the ramp. This only applies to unloading. Entrances must be kept clear immediately afterwards and the vehicle must be parked temporarily in the available parking spaces (see last page).

Suggestions and tips for stress-free dismantling

On Friday, 12.04.2024, clear your assortment first and only pick up your vehicle when the goods are ready for loading. Treat yourself to dinner in one of the nearby restaurants and only then start dismantling your stand.

BERNEXPO[®]
GRUPE

Ideally, you should position yourself by the goods lift nearest to your stand (Lift 1 or 3, see also hall plan)

Available parking spaces:

- P 8 Parking garage - Bolligenstrasse 61, 3006 Bern
(please note the parking garage exit for the shortest possible route to the exhibition entrance)
- P 1+2 (for vehicles over 2.10h)

All vehicles with a maximum height of up to 2.10 m must park in the **P8** expo parking garage so that there are sufficient spaces for higher vehicles and trailers in the (also chargeable) P 1+2 parking spaces (entrance via Papiermühlestrasse, just after the "Wankdorf Center" streetcar stop, not directly from Tschäppetstrasse).

If you require an outdoor parking space in P 1+2 due to the dimensions of your vehicle and have not yet contacted us, please contact the exhibition team. You will then receive a corresponding parking permit from the exhibition office, which must be deposited in your vehicle.
